**Blackkkiansman (MA15+) Comedy, True Story**

From visionary filmmaker Spike Lee comes the incredible true story of an American hero. It's the early 1970s, and Ron Stallworth (John David Washington) is the first African-American detective to serve in the Colorado Springs Police Department. Determined to make a name for himself, Stallworth bravely sets out on a dangerous mission: infiltrate and expose the Ku Klux Klan. The young detective soon recruits a more seasoned colleague, Flip Zimmerman (Adam Driver), into the undercover investigation of a lifetime. Together, they team up to take down the extremist hate group as the organization aims to sanitize its violent rhetoric to appeal to the mainstream. Produced by the team behind the Academy-Award (R) winning Get Out.

**Crazy Rich Asians (PG) Comedy, Drama**

"Crazy Rich Asians" follows native New Yorker Rachel Chu (Wu) as she accompanies her longtime boyfriend, Nick Young (Golding), to his best friend's wedding in Singapore. Excited about visiting Asia for the first time but nervous about meeting Nick's family, Rachel is unprepared to learn that Nick has neglected to mention a few key details about his life. It turns out that he is not only the scion of one of the country's wealthiest families but also one of its most sought-after bachelors. Being on Nick's arm puts a target on Rachel's back, with jealous socialites and, worse, Nick's own disapproving mother (Yeoh) taking aim. And it soon becomes clear that while money can't buy love, it can definitely complicate things.

**Mile 22 (MA15+) Action**

In a visceral modern thriller from the director of Lone Survivor, Mark Wahlberg stars as James Silva, an operative of the CIA's most highly-prized and least understood unit. Aided by a top-secret tactical command team, Silva must retrieve and transport an asset who holds life-threatening information to Mile 22 for extraction before the enemy closes in.

**The Predator (CTC) Sci-Fi, Action**

From the outer reaches of space to the small-town streets of suburbia, the hunt comes home in Shane Black's explosive reinvention of the Predator series. Now, the universe's most lethal hunters are stronger, smarter and deadlier than ever before, having genetically upgraded themselves with DNA from other species. When a young boy accidentally triggers their return to Earth, only a ragtag crew of ex-soldiers and a disgruntled science teacher can prevent the end of the human race.
