Stitch Head (PG)	Stitch Head was the first creature brought to 'almost life' by mad professor Erasmus. In the years since, he’s become nursemaid to the master’s ever-growing menagerie of neglected creatures, tasked with teaching them to suppress their 'inner monster' and hide out in the castle – away from prying eyes and itchy pitchfork fingers, of the village mob in the valley below. But when grubby circus impresario Fulbert Freakfinder arrives offering Stitch Head a starring role in his freak show, our hero is tempted by the promise of love and acceptance.
Resident Evil (MA15+)	Described as a reboot that won't retell a story from the game series, but will return to the franchise's suspense/horror roots and be more faithful to the spirit of the early games. Plot TBA.
Spa Weekend (M)	Four lifelong friends realize that somewhere between careers, relationships, families and everyday responsibilities, they have forgotten how to take care of themselves and each other. Burned out and overdue for a break, the women escape to a luxury spa retreat for what turns out to be an unforgettable weekend dedicated to fun, laughter, and a lot of really bad decisions
& Sons (M)	A world-renowned but reclusive novelist, believing he is about to die, summons his estranged sons to his home. But instead of seeking forgiveness for their shattered family, he tells them a wild and unbelievable secret that could rewrite their past.
Runner (M)	A former soldier is thrown into a brutal race against time when a critical medical delivery makes him the target of a ruthless cartel. With betrayal closing in from every side, he must survive the chase and deliver his cargo before an innocent child runs out of time
